ADVERTISEMENTS FOR THE COUNTRY

Advertisements for the WERKLY HERALD should be handed in before ten o'clock on Wednesday evening.

THE SITUATION.

An attack by the rebel cavalry, one hundred strong, was made yesterday on our cavalry patrol on the telegraph road, between Dumfries and the Occaquan. Eight of our men were captured.

An expedition from General Hooker's army, ut der Colone! Fairchild, which was sent out recently to Northern Neck, returned to Belle Plain yesterday after a successful forage, in which they got possession of three hundred pounds of bacon, one thousand pounds of pork, two hundred and thirty bushels of wheat, three thousand bushels of corn, fifteen bushels of white beans and a large quantity of oats were secured. The cavalry seized a number of valuable horses and mules, captured several prisoners and broke up the ferries at Union wharf and Tappahannock Colonel Fairchild also burned a schooner engaged is smuggling contraband goods into Virginia. All is quiet on the Rappahannock.

A despatch from Cincinnati says that the rebel raid in Kentucky has proved a failure, and that intelligence from Murfreesboro says:--"The rebels report 15,000 Union troops at Savannah, Tenn.; that Grenada is in our possession, and that Gen. Grant's forces are surrounding Vicksburg."

The daring attempt of Admiral Farragut to pas the rebel batteries at Port Hudson, on the Missis sippi, as well as of the co-operating movement of the army under General Banks, are fully and graphically described in the letters of our special correspondents which we publish to-day. The Hartford (flagship) and the Albatross were the only two vessels that succeeded in running the gauntlet. The firing is described as having been most terrific and continuous. The Richmond made vigorous' efforts to go by the batteries; but after firing for over an hour was disabled. and had to withdraw. The loss of the Mis sissippi by fire is fully confirmed. The army ope rations were brilliant and successful so far as the commanding General intended it should be. The accounts are in every way worthy of attentive perusal, coming as they do from our own reliable correspondents who were in the thickest of the battle.

By this arrival we also learn that the steam Bio, from Havana, was completely destroyed by fire at New Orleans.

We learn from Hilton Head that on the mornin of the 25th inst. all the Monitors (six in number left that point, together with several wooden gunboats and half a dozen schooners. The Ericsson had just arrived there with a floating nondescript in tow, called "The Devil." Its purpose is understood to be to clear channels of torpedoes and other obstructions.

THE LEGISLATURE.

A considerable amount of business was trans-acted by our State Legislature yesterday; but the most of it was not of a character to make it of importance to the general public, being bills and measures either local or special. In the Senate, a report was made on the subject of locating th new Quarantine; a resolution of inquiry relative to the corporators of the Broadway Railroad was adopted, and a bill to repeal the Militia law of last session was introduced. The Assessment bill was under consideration for some time.

In the Assembly the bill to incorporate the Soldier's Home was reported complete by the Judiciary Committee, and a number of bills of minor interest were acted upon. A preamble and resolution of inquiry in reference to the recruiting officers of other States enlisting soldiers in this were introduced; but, by the mover's consent were afterwards tabled.

MISCELLANEOUS NEWS.

The British steamship Victoria, from Liverpool, which arrived at this port on Sunday, brings on freight 2,223 bales of cotton.

The loyal citizens of Jersey City and vicinity without distinction of party, held an immense mass meeting last night in the new Tabernacle corner of York and Henderson streets, for the purpose of expressing their devotion to the Union and the constitution of the United States, and their firm determination to uphold the authority of the government and enforce the laws. Hon. B. S. Gregory, ex-Mayor of Jersey City, presided. Hon. James T. Brady and E. M. Dickerson, Esq., of New Jersey, made stirring and patriotic speech which the pressure on our space to-day prevents us from doing justice to, and a series of resolutions in support of the government were adapted. Beyond an ineffectual effort of a few copperhead:

to raise a disturbance, the proceedings passed off with the greatest harmony and enthusiasm. The Harbor Defence Commission failed of a quorum at their meeting last evening, owing to the absence of some of the members on a miss to Albany, by appointment, on a Joint Committee tion of Commissioners of Deeds. Mayor Opdyke presented a letter from General McClellan, which was laid over for redling at the next meeting. The Board adjourned to three o'clock P. M. or Tuesday, April 7.

In the Court of General Sessions yesterday, before City Judge McCunn, Albert Bogart pleaded guilty to grand larceny, in robbing a soldier named John Shannon of \$216. Sentenced to the State prison for two years. John McGoldieck pleaded guilty to assault and battery on Stinson Melvor. Fined \$5. The jurors were then discharged for the term, and the Court adjourned until Saturday next.

In the United States District Court libels were filed yesterday by the government against three prize vessels—the Peterhoff, the Nicholas I., and

the Granite City. Emery Pardy, of the firm of Pardy & Tyson eather finders, of No. 36 Bowery, committed suisede yesterday afternoon by cutting his throat with a penkulfe. Deceased exhibited symptoms

of mental abboration for several weeks past. He was sixty-six years of age, and lived at No. 274
East Broadway. Coroner Wildey held an inquest.
During six days, from the 17th to the 22d of

March, there arrived at New Orleans, from the interior of the State of Louisiana, 1,006 bales of cotton, 3,440 hhds. of sugar and 6,832 barrels of molasses. About one thousand additional bales of cotton had been brought inside the Union lines

and was awaiting shipment to New Orleans.

The stock market was better and buoyant yesterday morning; in the afternoon it eased off, under free offerings by the bears, and closed dull. Gold sold as high as 148% and as low as 145, closing 146% bid. Exchang fluctuated between 160 and 163, closing about 162 a 16 Money was easy; call loans 6 per cent. The bank state ment shows a decrease of \$5,640,620 in deposits \$1,380.965 in loans, and an increase of \$362,569 in specie. Cotton advanced to 67c. a 69c. for middling yes-terday, with sales reported of about 1,090 bales in lots. There was more doing in flour, which was 10c. a 20 per bbl. dearer. Wheat was held higher, but was A fair inquiry prevailed for corn, which was lightly better in price. Oats were less active and les uoyant. Barley was in better demand. There was livelier business reported in groceries and provisions particularly in pork, bacon and lard, prices of which vere firmer, and the shipments of which were on a large cale to English ports, mostly to Liverpool and Los Whiskey was steady, but not active. There was less an erations in the market for other commodities.

Interesting Intelligence from New Or-

We publish this morning highly interesting in elligence from New Orleans, brought by the New Brunswick, including full accounts from our special reporters of the recent land and naval operations at and in the vicinity of Port Hudson, one of the two rebel strongholds on the Mississippi. All doubts are now cleared up, and the news which first reached us from rebel sources, and afterwards from the Union lines above Vicksburg, appears to be substan tially confirmed.

The steamship Mississippi, after a glorious fight, rivalling the heroic deeds of the days of Paul Jones, was abandoned and burned. The Hartford-the flagship of Farragut-and the Albatross passed safely through the flery ordeal, while the rest of the fleet were repulsed, including the Richmond, which made a gallant stand, but was ultimately compelled to give way from being disabled in her steam appararatus. It will be seen that the report of the vessel having been sunk is without foundation. The cannonade to which the fleet was exposed in this battle is described as the most terrific since the commencement of the war. To aid the rebel gunners in directing their fire lights were placed on the river, which gave them a clear and distinct view of our vessels, making them literally so many targets for a furious rain of plunging shot, while the batteries on the bluff were completely protected, not only by their great height above the water, but by the darkness in which they were enveloped.

The object of the expedition seems to have been substantially accomplished by the bravery and success of the old sea dog Farragut, notwithstanding the failure of the land force to render him any effective assistance. By running the gauntlet of those formidable fortifications he has established himself between Port Hudson and Vicksburg, thus cutting off completely their communication with the right bank of the Mississippi, and consequently with Texas, whence they derive such vast quantities of supplies, and also arms, ammunition and clothing eross the Mexican frontier. By continually cruising up and down he can prevent the de scent of any transports from the Red river and other water courses, and so reduce the Gibraltar and Sebastopol of the Mississippi to surrender by sheer starvation. This achieved, the downfall of the confederacy would not be far distant. Its resources would be dried up and circumscribed, complete success would soon crown our arms in the Southwest, and the subjection of the balance of the rebellious territory would rapidly follow.

Such are the present and future fruits of the enterprise of the naval hero before whose The progress of our arms may appear slow; but it is not the less sure.

DISCOURAGEMENTS TO THE RESELLION .- Within the last few days three captured Anglo-rebel steamers running the blockade, have been brought as prizes to this city. Laden, as they were, with Enfield rifles and munitions of war the loss to the confederacy is incalculable. To this must be added the destruction near Charles ton of the Georgiana, laden with a similar precious freight and pierced for sixteen guns. She was intended to be the consort of the Alabama and was her superior in strength and speed Had she been let loose on the ocean the amount of damage to our merchant marine would have been immense. These losses are most discourag ing to the rebellion. Again, two of our ships-ofwar, the Hartford and the Albatross, have run the gauntlet of the batteries of Port Hudson. and are now cruising between that point and Vicksburg, so as effectually to cut off communication by way of Red river with either stronghold, and thus to starve out both for want of supplies. With our vessels-of-war between Vicksburg and Port Hudson, both forts are neu tralized and without avail, and the control of almost the whole of the Mississippi in the hands of the federal power. These are great material victories for the Union, and cannot fail ere long to produce the most salutary effects upon the good cause.

A NEW "SOCIETY FOR THE DIFFUSION OF USE FUL KNOWLEDGE."-We noticed yesterday that both the copperheads and the abolitionists had started societies for the diffusion of useful political knowledge. These societies are inended to influence the domestic market; but it appears that a new society is in operation, designed to affect public opinion in foreign parts. Lord Lyons tells us, in his letter to Earl Russell, published yesterday, that the democratic-"or, as they now style themselves, conservative"-leaders called upon him immediately upon his return from Europe, and gave him all sorts of political information, which he of course transmitted to the British Cabinet. Well, there is something practical about this society, and Lord Lyons makes an excellent agent for it. If these leaders continue their course of instruction they may soon educate the British Cabinet into as thorough a know ledge of our affairs as they have themselves. But that is not saying much.

Capture of Jeff. Davis' Boots and Mrs. Davis' Night Gowns.

BALTIMORE, March 30, 1942 A carpet bag was seized by the Provost Marshal's offier to-day while on its way to Richmond, and was found o contain packages addressed to various distinguished noticidades in Rebeldom from Baltimore secessionists Amongst other things a splendid pair of boots for Jeff. Davis, and two flue linen night gowns, elaborately embrordered, a present for Mrs. Jeff. Davis from some ferminine rebola, were found, it has been suggested to good these surface archives the support of the point the property of the property

NEWS FROM WASHINGTON.

PAYORABLE ASPECT OF AFFAIRS.

The President is satisfied that the present condition of affairs is more favorable than it has been at any time since the rebellion assumed its present proportions for the early and complete triumph of the Union cause. All the accounts received from the military and naval forces represent them to be in the most satisfactory and efficient condition, and the perivate and official information communicated to the President and the departments is such as to convince them that a comparatively brief period will show that the rebellion is in its last stages of exhaustion and desparation. in its last stages of exhaustion and desperation. While the rebols are at their wits' end to procure the means of the resonate at their finances are in a state of collapse, we have a superabundance of provisions, and more money is tendered to the government than they want both from domestic and foreign capitalists. All that is needed now is a few days of pleasant weather to enable active opera-tions to be resumed and vigorously prosecuted.

CONDITION OF THE ARMY OF THE POTOMAG. General Hooker arrived here last evening, and ha He had an interview with the President and returned to neadquarters to-night. All accounts agree in represen ing the army of the Potomac as being in splendid condi tion, and prepared to move at short notice when the time cement of active operations.

PAYMENT OF THE PROOPS. The paymasters for troops in North and South Carolina have been ordered to hold themselves in readinoss to rediers in those States. All of our troops will soon be paid to the 1st of March, \$80,000,000 being required for that

purpose.

THE REBEL REPORTS FROM VICESBURG. Nothing has been received at the Navy Department day confirmatory of the rebel report of two gunboats having attempted to run the battery at Vicksburg, and one of them having been destroyed and sunk and the other badly damaged in so doing. The story is not credited here, although it is not impossible that Admiral Porte may have sent or attempted to send such reinforcemen to the aid of Admiral Farragut.

CONDITION OF THE BESKL ARMY OF THE RAPPARAN.

NOCK.

Deserters recently from the rebet lines speak of the general good health of the troops composing the Army of the Rappahannock, notwithstanding the coarseness and of their food. The information of these deserters is limited, owing to the extreme caution of the command ing officers in preventing one brigade from communicating with another as to their relative strength, position, &c. Their impression is, however, that the army has not been largely diminished, and that the places of the old troops withdrawn have been partially supplied with new levies The rebels are still engaged extending their earthworks ail along the line of the Rappahannock, particularly to ward Port Poyal. LETTERS OF MARQUE.

A misapprehension exists as to letters of marque and reprisal. The Navy Department has nothing to do with the subject, which belongs to the State Department. THE REBELS RAVAGING THE SHENANDOAR VALLEY. The Shenandoah Valley, from Front Royal to Berry ville, having never yet been fully drained of its agricu tural supplies like other portions, may account for the reported presonce in that section of Gen Fitzhugh Lee, who was said to be lurking about Front Royal with his scouts and pickets, ranging down among the Bull run mountain. They recently burned the temporary bridge with which our forces had replaced the stone bridge over Bull run, destroyed in the first campaign. There is no doubt rebel agents are collecting grain and other supplie in Loudon and Fauguier counties.

NCBEASE OF WAGES OF THE NAVY YARD LABORERS The wages of the laborers in the Navy Yard in this ity have been increased from a dollar and a quarter to a dollar and a half per day. The increase of the wages of sideration, and probably will be conceded.

THE GREAT UNION MEETING. Great preparations have been made for the Union mass meeting to be held to-morrow. The government employes are to be released at three o'clock to attend it, and

Much greater stringency than heretolore is now exer-Numbers of arrests are being made daily of parties already known to have rebel sympathies

DEATH OF QUANTERMASTER MODNEY.
Thomas Mooney, quartermaster of the Ninth Massachusts regiment, who was injured at the hurdle race on St. Patrick's day by a collision with another horseman, died of his injuries, and his remains were forwarded to Boston this afternoon. He was formerly a member of the Bosto TESTIMONY OF GEN. REVES REVATIVE TO THE PE

NINSULA CAMPAIGN.
The testimony of General Keyes before the Conon the Conduct of the War relates exclusively to the ninsula campaign. It is said that General Keyes and General Van Allen were the only two general of ninsula and evacuation Harrison's Landing. They were the two generals who were left behind in command of burg and Yorktown.

NEWS FROM MEXICO.

San Francisco, March 30, 1863 Dates from the City of Mexico to the 10th of March have been received. The army having provisions for three months had advanced within eight mites of Puebla The camps were visible from the tower of Puebia Cathe dral. Some skirmishing had taken place. The Mexican were expecting an attack in a few days, and were make ing every possible proparation for a desperate resistance

Promotions in New York Regiments.

ALBANY, March 30, 1863. The following are promotions in the New York regiand Seventh-Newton P. Col Beutenant colonel; Wm. F. Fox, major. Forty-second-James E. Mailon, colonel. Ninety-first....Geo. W. Stack bouse, major. Colonel De Forest, Sighty-first regiment, has resigned

The Anderson Cavalry.

It is understood here that the position of the Anderson cavalry, mentioned to-day in a Cincinnati despatch as having been mustered out of survice, consisted only of the original troop, the main part of whom have been made officers of the cavalry regiments, only about wenty remaining. These have been honorably discharged, having performed two years' active service in the field. The Anderson cavalry regiment will continue its origanisation

Beauregard's Last Bright Idea and Brilliant Demand.

DREADFUL SUFFERING OF SAVANNAR do.

Our Hilton Head Correspondence HILTON HEAD, S. C., March 25, 1863

Extraordinary Demand from Beauregard—He Wants Us to Give Up the Mercalita and the Keystone Stats—the Isaac P. Smith Pictsd Up and Rechristened the Stono—Interesting News from Swawnah—The People of that City Suffering for Pool—Privations of the Robal Soldiers in the Rebel Hospitals—Quarrel Between the Ottions and Clingman's North Carolina Brigads—The Planters Dis contented—Latest News from the Colored Brigads in Flo

vide—They are Reinforced by Two White Regiments—A Battle Immunent—Matters at Hillon Hoad, &c., dc. Captain Kinzie, of Major General Hunter's staff, went up the Savannah river in sharge of a flag of trune on Tuesday, for the purpose of communicating to the rebel Generals the recent order from the War Department relative to the laws of parole. He found the Confederate an the titles very glom and uncommunicative. They refused to receive General Hunter's communication until they had returned to the city and consulted with General Mercer. In consequence of this delay the flag of truck

boat has not yet returned.

The rebels at Charleston have relitted the captured gunboat Isaac P. Smith, and have given her the name of hands. The Stone came down to the blockading fleet off Charleston on Monday morning last with a flag of truce, bringing from Beauregard, as I understand, a demand for the delivery into the hands of the Confederates of the steamers Mercedita and Keystone State. In the verba parole given by Lieutenant Commander Abbott, of the

steamers Mercedita and Keystone State. In the verbal parole given by Limitenant Commander Abbott, of the Mercedits, to the commander of the Chicora, on the 31st of January last, it will be remembered that nothing was said about she vessel. No prize crew was ever put aboard of her. Only the officers and men on board of her surrendered. The rebels never had her in their possession, and it would be expecting too great a favor at our hands to sak us to make them a present of her now. I do not know that there was ever before a proteace, except in the lying despatches of Beauregard himself, that the Keystone State was captured. The question with regard to the Mercedita, hawever his a novel one, and involves many points which are entirely without precedent. The Anglo rebel steamer Antonica, from Nassau, with a valuable carge, succeeded in cluding our blockaders and got into Charleston or Treadw norming last. These light draught vessels, built expressly for the purpose of running close in shore, have decidedly the advantage of our deep blockading steamers.

My latest intelligence from Savannah is up to yesterday morning, the 24th inst. The people there are suffering all manner of privations. Even the sick in the hospitals have nothing but bacen and own bread for nourishment. Cliegnan's North Carolina Brigade is at Savannah, and some trouble has lately occurred between the people and the solidiers. The people of the city—at least all who are able and can be forced into the service—are still laboring upon the fortifications. Large numbers of negrees are constantly employed in the severe tasks, and their detention by the military authorities is occasioning a good deal of discontent among their owners.

The transport Beston, Captam Johnson, returned from Jacksonville yesterday morning. She took down the Sixth Connecticut Volunteers to reinforce the clored troops. The Delaware, Captam Cannon, had arrived with the Kighth Maine regiment. The darkies still held the town, and toloned Montgomery's band had driven the rebel force

The standard Arage arrived on raceday morning. While off Buil's Bay, on the morning of Monday last, site was brought to by a gunboat, and in getting to sea again grounded upon a bar which had made out about a mile and a half during the past three months, and the existence of which was unknown by any one on board. Size got off safely, but she would have been in port on Monday night had it not been for the above circumstance. The steamship Mary Boardman, of the Adama Expressine, also arrived on Tuesday, and together with the Fah Kee. is now discharging. The steamship Ericason, with

Mouroe.

The steamship Cosmopolitan has been fitted up by the Medical Purveror as a hospital ship. No better men tor the tender care of sick and wounded soldiers, or for the management of such a vessel, could be selected than Captain Captain Captain Captain.

HOOKER'S ARMY.

Quantity of Supplies Captured, &c. HRADQUARTERS ARMY OF THE POTOMAC, MARCH 30, 1803.

The expedition of Colonel Fairchild, of the Second Wis consin, to the Northern Neck, returned to Beile Plain on Saturday, after a very successful trip. The command consisting of two handred and forty inon from the Second ousin regiment and twenty cavalry, left Balle Plain n steamers on the night of the 25th, and serived at the landing on Lower Machodon creek, in Westmoreland county, the pext morning at daylight. Lacutement Colonel cavalry, for the purpose of breaking up the ferries and capturing rebel cavalry reported to be in that sec-tion, while the infantry debarked and marched up to Newton's plantation, where a large quantity of grain was stored. A few shots were fired at the infantry by the bushwhackers; but the secuts sen out after the guerillas returned unsuccessful

At night Colonel Fairchild surrounded his force with a breastwork of cordwood, in anticipation of an attack; but no heatile demonstrations were notice; and next day the work of loading the barges was resumed. Three hundred no heatile demonstrations were nonde; and next day the work of loading the barges was recomed. Three hondred pounds of bacon, one thousand pounds of pork, two hundred and thirty bushels of which boars and a large quantity of ours were search. The teams of the fariners were impreased; and the slaves, jobilant at the prospect of freedom, worked faithfully. A number of the latter returned with the expedition. The cavalry seized a number of valuable herses and unless, captured several prisoners, and broke up the ferries at Union wharf and Tappahamneck. Colonel Farchild also burned a schooner engaged in smuggling contraband goods into Virginis, bringing away her anchors, chain cables, &c.

A number of citizens begged permission to come on board the steamers and come up to Belle Plain. They report terrible suffering on the part of those suspected of loyal sentiments, and state that there are now on the Neck hundreds of the poorer classes who would rejoice at an opportunity to escape from the rebel army. Some of the leading inhabitants have oppressed the population most outrageously, and are employed as tools by the robel authorities to enforce the conscription and spy upon the movements of our army.

Dr. Smith, who was arrested near Heatingville some time since, and subsequently released, gives most prepaterous accounts of his treatment while in our outlow, and is reported to be at his old business again, assisting snugglers and securing the arrest of loyal men. The wheat crop, it is stand by refuges, is a complete failare in Virginia. Preparations are being made for planting a large amount of corn, but of wheat and outs there is and will be a great dearth.

One and a half pounds of flour and one fourth of a pound of bacon, or three-fourths of a pound of fresh bod, constitutes the delity ration in the robel army, and even this small quantity is issued with great irregularity, Great disaffection prevails among the troops, and as soon as the Rappahannece ceases to be the dividing line between the two armice, deserters

lines.

But very lew of the enemy visit the Northern Neck.

An extensive trade in contraband goods is maintained,
and a few cavairy are engaged eccorting the parties
scross, but with this exception that section is estirely

noccupied.

Affairs along the Rappehannock remain quiet. The nemy is evidently still in his old camps, though an impression prevails that Gen. Lee is preparing to fall back pression prevails to be bed in the Pamunkey.

Gen. Howker went up to Washington last night.

REBEL CAVALRY RAID IN VIRGINIA.

STAFFORD COURT HOUSE, Va., March 29, 1863. STATION COLET HOUSE, Va., March 29, 1869, intelligence has just been received here of an attack on our cavalry patrol on the telegraph road, between Domfries and the Occoquan, this morning. The attacking party consisted of about one hundred rebel cavalry, kight of our men were captured. One man of the First Virginia rebel cavalry was captured by our men; but he represented himself as a deserter. Desertions from the rebel army are very frequent. The troops have been for a long time without pay and are almost destitute of clothing, while their ratious are very scanty.

News from San Francisco. San Funcisco, March 30, 1863. Arrived ship Rangoou, from New York, and the steam rother Jonathan, from the northern coast, bringi

Arrived ship Rangoon, from New Jork, and the sessing goo goo in treasure.

There has been considerable excitement for the past three days in consequence of rumors that two hundred secessionists, secretly organized in Naya county, were about to make a sodden night attack on the Hencian minery station and Mare Island Navy Yard, for the purpose of capturing the arms and magazines, leaving the State marry unprotected in the erest of success. The rumors were so far credited by the government efficials that the steamer Saginaw was ordered to the island on Saturday and the Smittle garrison kept under arms night and day. Nothing has transpired to confirm the rumors, but the officials appear to have intergation which is withheld from the public
